

## Duty of Candour Annual Report

### **Auchinairn EYC**

The Duty of Candour underpins the Scottish Government's commitment to openness and learning which is vital to the provision of the safe, effective and person-centred health and social care.

A Duty of Candour procedure should be followed when an unexpected or unintended incident has occurred, where the incident results in:

- Someone has died
- Someone has permanently less bodily, sensory, motor, physiologic or intellectual functions
- Someone's treatment has increased because of harm
- The structure of someone's body changes because of harm
- Someone's life expectancy becomes shorter because of harm
- Someone's sensory, motor or intellectual functions is impaired for 28 days or more
- Someone experienced pain or psychological harm for 28 days or more
- A person needed health treatment in order to prevent them dying
- A person needing health treatment in order to prevent other injuries
