

Curriculum Rationale

PLAY – Possibility, Learning, Agency, You

At Auchinairn EYC nursery, PLAY is more than just fun, it represents our commitment to children's rights and a child-led approach. Through Possibility, every child is encouraged to explore, take risks, and discover their potential. Through Learning, we nurture curiosity and a love of knowledge. Through Agency, children are empowered to make choices and have their voices heard. And through You, we celebrate each child as an individual, valued and respected. This approach ensures a rationale and ethos where children's voices are central, their independence is supported, and every day is full of meaningful, purposeful play.

Possibility

Every play experience opens a world of possibility, where curiosity, investigation, and discovery guide each child's unique journey.

Learning

Lives in every moment of play, through hands on exploration, meaningful connections, and joyful discovery indoors and out.

Agency

Children grow in confidence and independence when they make their own choices, shaping their play and their world with their voices at the centre.

You

Each child is valued, respected, and celebrated because they bring the magic to our nursery, making every day full of wonder and play.
